* "Families" do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples.

** Same-sex couple households are included in the family households category if there is at least one additional person related to the household by birth or adoption. Same-sex couple households with no relatives of the household present are tabulated in nonfamily households. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

* Same-sex couple households are included in the family households category if there is at least one additional person related to the household by birth or adoption. Same-sex couple households with no relatives of the household present are tabulated in nonfamily households.

"Nonfamily households" consist of people living alone and households which do not have any members related to the household. Nonrelatives include any household member not related to the household by birth, marriage, or adoption. This includes unmarried partners. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

*Notes: Summing across Total Tallies rows would give results greater than the corresponding population counts because of multiple counting (e.g., each person of three races would be counted three times). Detail is not shown for the four-race and five-race combinations. Each Percent shown represents that combination's share of total tallies for the race indicated in the column header. See Race Profile 1 for Grand Total Tallies.
