*Notes: Summing across Total Tally rows would give results greater than the corresponding population counts because of multiple counting (e.g., each person of three races would be counted three times). Detail is not shown for the four-race and five-race combinations. Each Percent shown represents that combination's share of total tallies for the race indicated in the column header. ### PCT20/PCT22F. GROUP QUARTERS POPULATION BY SEX BY AGE BY GROUP QUARTERS TYPE

Universe: Population in group quarters for persons who are Some Other Race Alone (*)

The tables present the distribution of the population across different categories such as age, sex, and type of group quarters. The data includes information about the number of households, the number of persons in each household type, and the percentage of households that are occupied or rented.

Notes: (*) Tables with PERSONS as the universe enumerate persons according to their own race or ethnic category. (**) Tables with HOUSEHOLDS or HOUSEHOLDERS as the universe enumerate persons in households according to the race or ethnic category of the householder. (***) Same-sex couple households are included in the family households category if there is at least one additional person related to household by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. Responses of 'same-sex spouse' were edited during processing to 'unmarried partner.'
